

CHELTENHAM SECONDARY COLLEGE

SCHOOL ENTRY REQUIREMENTS: INTERNATIONAL STUDENTS

RATIONALE: Cheltenham Secondary College runs a successful International Student Program. Students benefit from a program which attends to their emotional well-being and academic success. To ensure the on-going strength of the program the college wishes to ensure students are informed and well positioned to maximise the opportunities that come from international study.

AIM:

In order to maintain high academic standards and being mindful of the emotional wellbeing of International Students Cheltenham Secondary College has established minimum standards required for entry into our International Program We believe that if students are not achieving high marks in their home country it would not be in the student's best interests to be part of any International program which requires them to study in a second language (English).

Implementation:

Students should demonstrate average results of 80% or more in the majority of subjects studied in the previous two years in the student's home country. We would require an average mark of 80% or more for English, Maths and Science as a minimum requirement.

Documented evidence of school results will need to be provided before admission is accepted. Students less than 15 years of age will only be accepted if they are accompanied by a parent who will act as guardian.
